- Let your kids participate in the Digital India movement through StartAR Study Application which will foster increased intelligence and enhance their learning capabilities. Also, it will develop the kid's learning ability to move forward with digital smart, progressive education. As an added benefit, numerous schools have adopted smart classes, but StartAR Study extends this impactful learning experience beyond the classroom, ensuring widespread educational benefits for your children.
- With StartAR, you can bring the engagement home using your Android Smartphone. StartAR application turns learning into fun using the revolutionary Augmented Reality technology with our exclusive books. With StartAR, children not only learn but also develop a genuine love for their educational resources.
- StartAR creates a learning bridge between kids & books through a mobile platform to help them concentrate on books, and parents feel hassle-free about their kid's learning and attention. It helps them to get rid of Digital addiction as they connect with books for a limited period.
- Kids enjoy digital fun! Instead of TV or video games, try StartAR books to boost their imagination and creativity. StartAR includes learning languages (English & Hindi), General Knowledge, Counting and many more. It's like a fun playground for their brains!
- StartAR is a lifesaver for busy parents. Nowadays, with hectic work schedules, it's tough to keep an eye on your kid's learning all the time. That's where StartAR comes in handy. Just open the app, scan the books, and let them learn on their own – simple as that!
- Download the StartAR Application from Google Play Store, and enter the 3D virtual world of learning with books. This is a new and unique technological concept where kids can watch and play with the book characters through the mobile screen using StartAR Books.
